Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 6 and 12 are rejected under 35 U.S.C. 102(e) as being anticipated by Hsien (US 6,951,154).

Hsien discloses a tool or instrument (Fig. 3) including: a handle having first and second ends; means for imparting torque 40 attached to a first end; and a means for guiding an elongated member attached to a second end (col. 2, lines 18-67 and col. 3, lines 1-33).

Allowable Subject Matter

Claims 10 and 11 are allowed.

Claims 3-5, 8 and 9 would be allowable if the minor objections made in this action are addressed.

Art Unit: 3733

Claims 7 and 13-15 are objected to as being dependent upon a rejected base claim; but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
